

GOODtoDO

ARE YOU AN INDOOR WATER HERO?

When washing dishes by hand, don't let the water run while rinsing. Fill one basin with wash water and the other with rinse water.

Run your washing machine and dishwasher only when they are full.

Skip the garbage disposal. Compost instead, and save gallons every time.

Turn off the water while you brush your teeth and save up to four gallons a minute.

Find and fix dripping faucets and leaky toilets.

The ways to save are almost as endless as the number of gallons we can conserve. For many more tips, go to askHRgreen.org and discover a treasure-trove of resources.

GOOD to DO

ARE YOU AN OUTDOOR WATER HERO?

Plant low-water-use or native plants for year-round landscape color.

Use a layer of organic mulch around plants to reduce evaporation and save hundreds of gallons of water each year.

Minimize evaporation by watering during the early morning hours, when temperatures are cooler and winds are lighter.

Use a broom instead of a hose to clean your driveway or sidewalk.

Use an auto shut-off hose nozzle to control the flow when watering or washing your car.

The ways to save are almost as endless as the number of gallons we can conserve. For many more tips, go to askHRgreen.org and discover a treasure-trove of resources.
